

PROJECT NAME: Elementary Math Proficiency Project (MaPP)

RECIPIENT: Weber School District

LOCATION: Ogden, Utah

PURPOSE: To compete in the 21st Century global economy, knowledge and proficiency in mathematics is critical. Today's high school graduates need solid math skills for college or the workforce. To help ensure students who graduate from Weber School District are equipped with necessary knowledge and skills in mathematics, it is critical that a strong math foundation is established early in a child's education.

Funding would be used for project coordinators, math coaches, contractual training and evaluation, computers and small equipment, MaPP resource kits, supplies, and travel.

AMOUNT: \$400,000
